# WEB DEVELOPMENT AND DESIGN - SUPPORTING A TECHNOLOGY COMPANY IN CREATING AN AUTOMATED VIDEO PRODUCTION TOOL

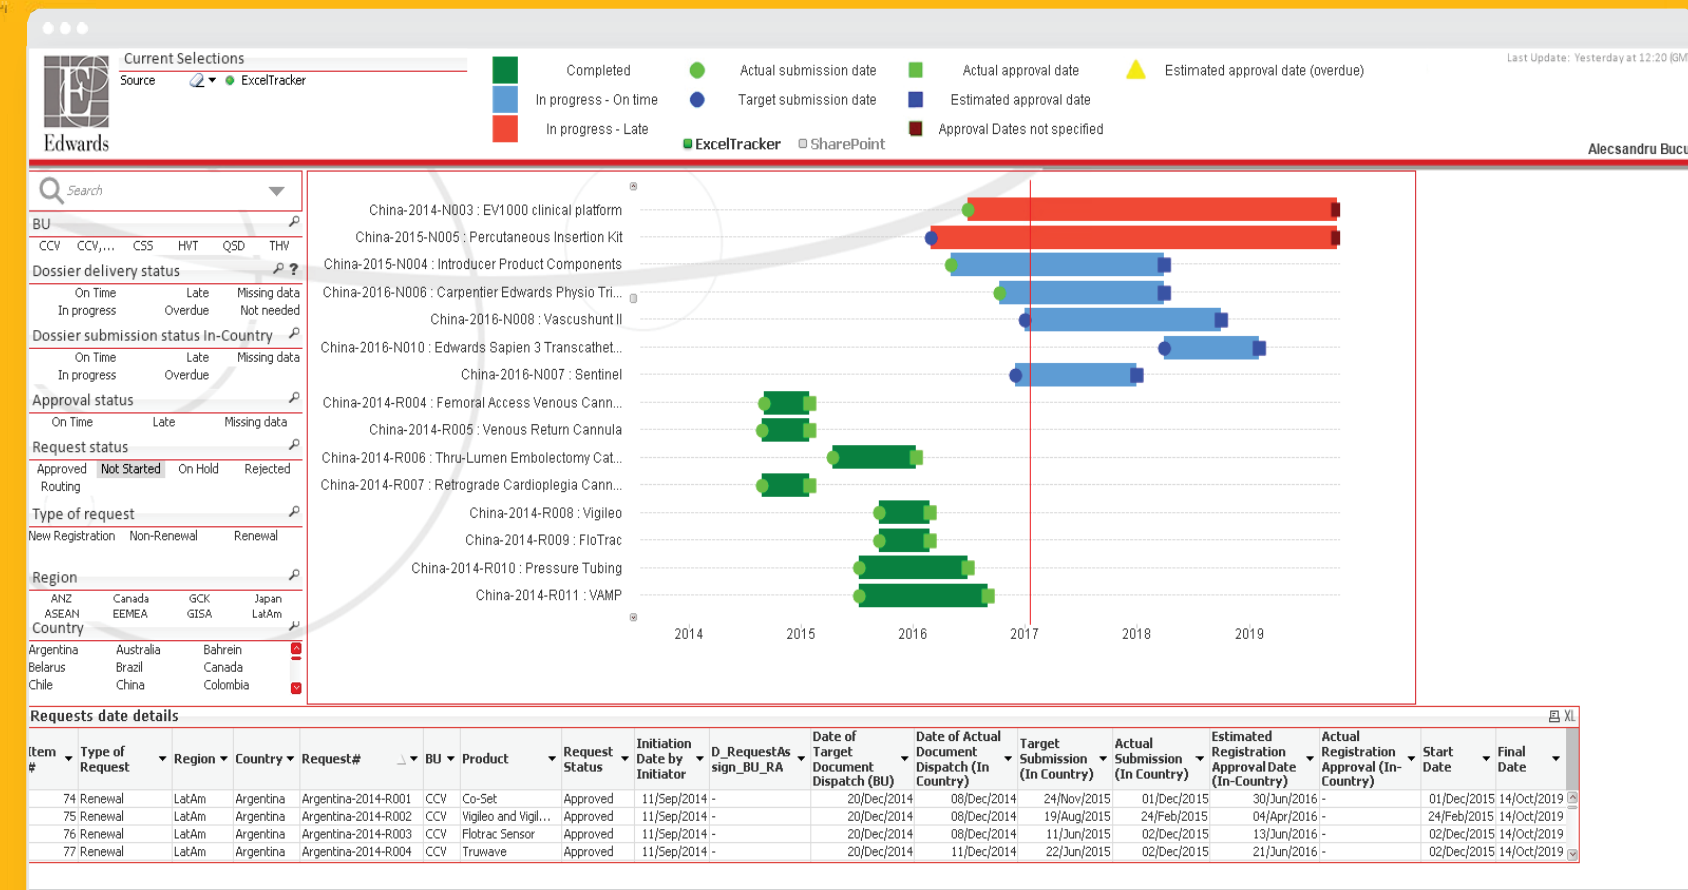

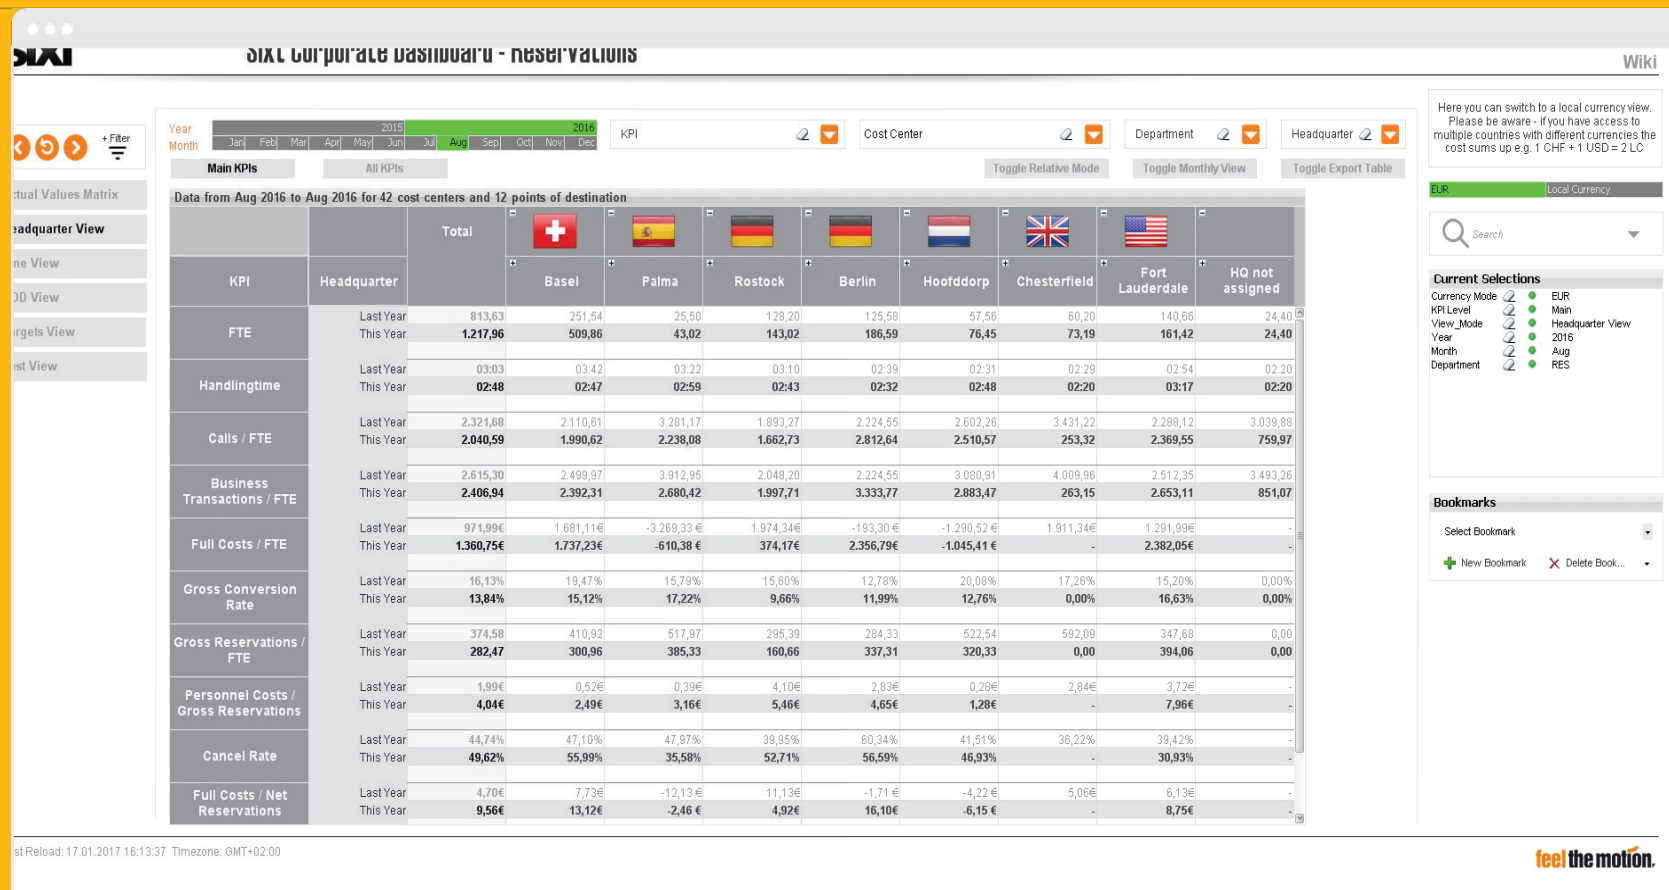

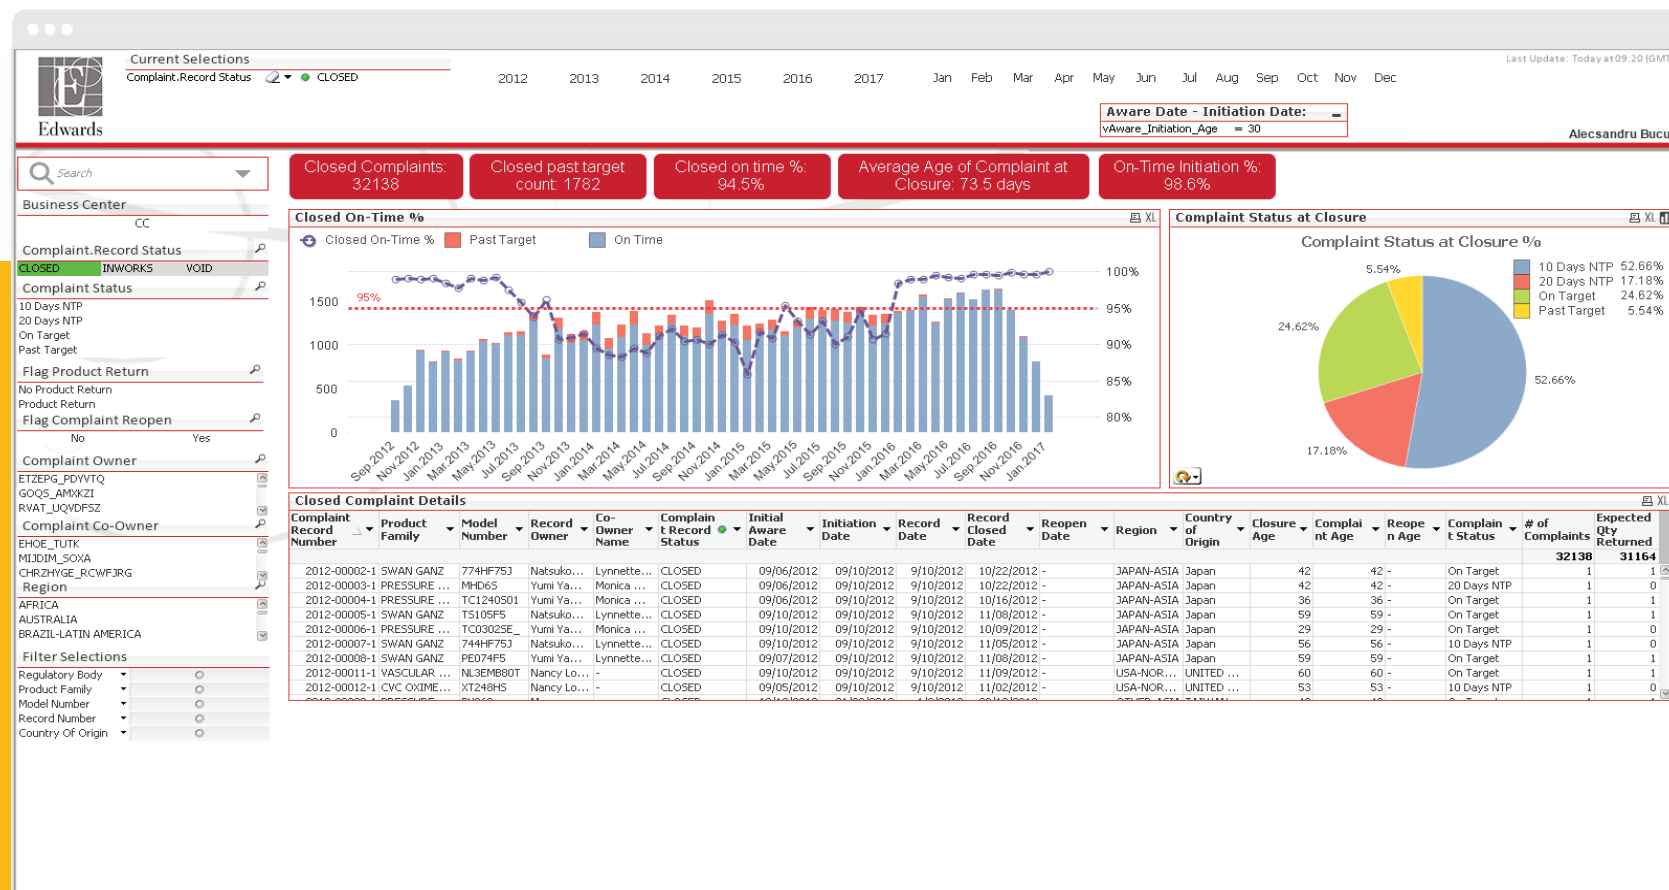

“After months of struggling to find the right IT capabilities to build a specific application, we came across Intelligence and decided to give their services a try. They were very responsive and took time to understand our requirements. Surprisingly enough they managed to find what turned out to be the perfect profiles and skills in a manner of days with great combination of skills: PHP, JavaScript, and AngularJS. We recommend Intelligence if you need fast delivering of great IT Specialists and methodologies!”

Alexandre H. Bustamante  
Director of Operations Keemotion

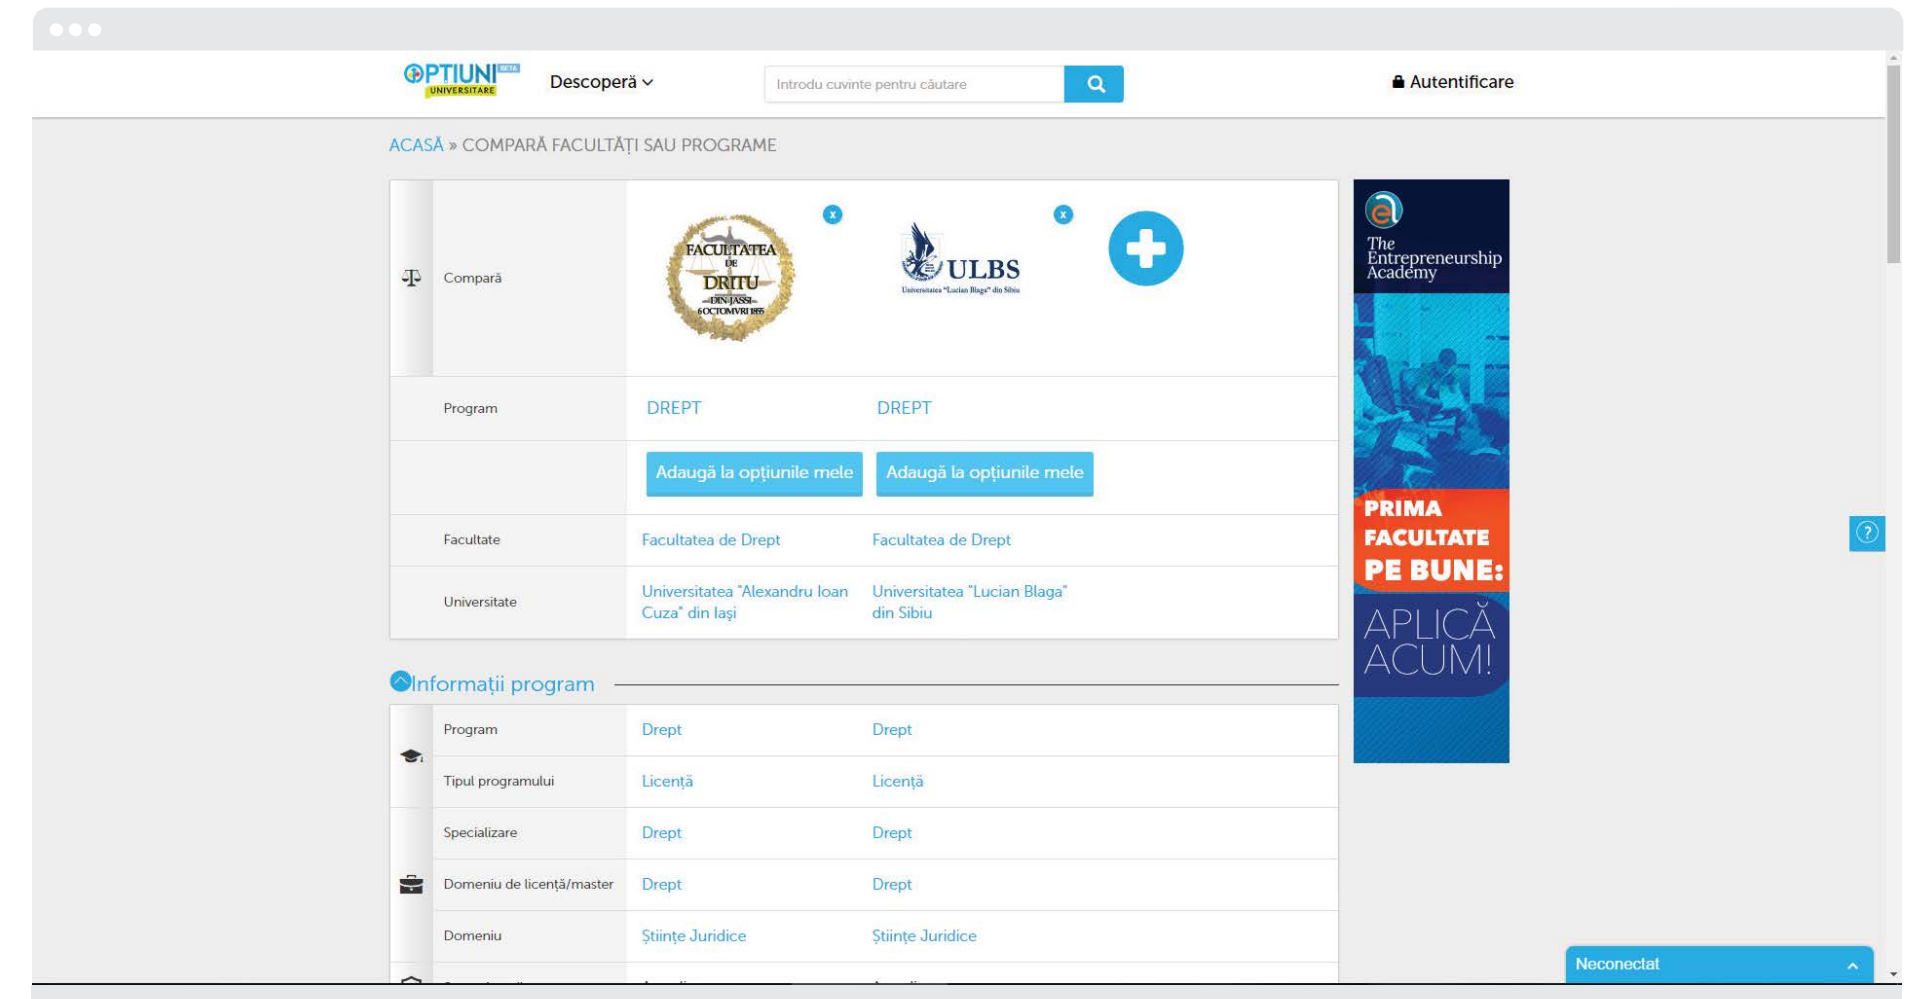

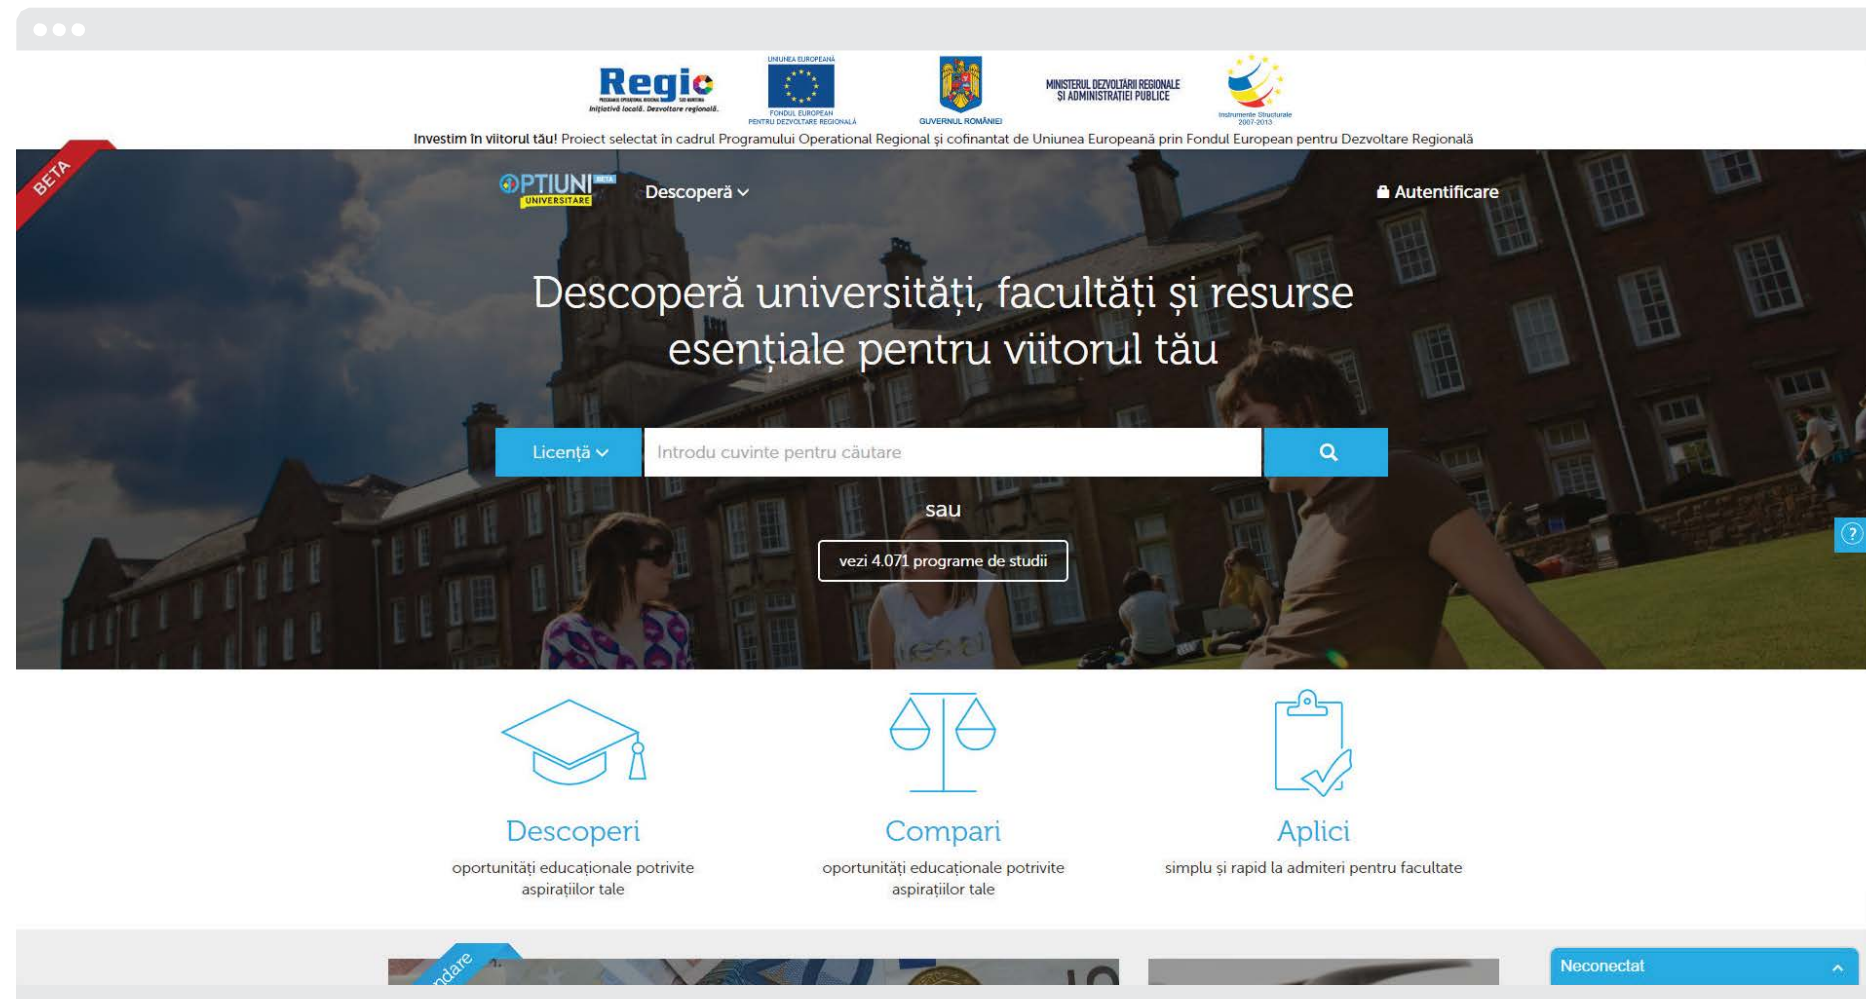

# DATA VISUALIZATION TOOLS AND ADVANCED ANALYTICS

Unique experience with a large range of analytics technics and platforms at scale.

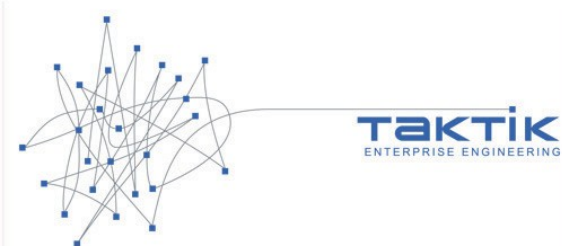

# WEB DEVELOPMENT AND DESIGN

"Intelligence has been an amazing partner in building a new platform from scratch. Not only they demonstrated a true professionalism and talent throughout the process, they anticipated future roadblocks and made sure to build something we can grow with. They made long distance collaboration felt like a non issue. Last but not least, the team is composed of wonderful people to work with : bright, committed, hard workers and great personalities! Net, net, highly recommended!"

Michael Renous  
CEO & Founder

# CUSTOMERS SERVED

# CUSTOMERS TESTIMONIALS

The key to our customer service is our seamless integration of functional and technical expertise with deep market knowledge. Below, few of the customers experiences with Intelligence:

"Intelligence have assisted us in our Equestrian Tracking project at the Rolex Grand Slam - CHI- Geneva 2015. I would recommend to any company that needs to outsource its software development to work with Intelligence as being a fantastic partner"

Horesh Ben Shitritv  
CEO  
PlayFullVision

"We had a chance to engage a business relationship in 2012 with Intelligence for sourcing high levels IT competencies in Switzerland. Despite very stringent sourcing procedures of our key customers, Intelligence has been both effective and reactive in providing quality profiles in a short term. We could then sign a 1st contract for one of our blue chip customer after only a couple of months of collaboration."

Pascal Baeyens  
Director Nestle Nespresso

"d!NK has been working with Intelligence since 2012 to our satisfaction. Intelligence is a reliable partner for pro-active by thinking about the right capabilities to fit development needs. Intelligence is responsive, hands-on and delivers excellent Software development services."

Jan Dheedene  
CEO Dink

"Intelligence has been an amazing partner in building a new platform from scratch using Microsoft C# technologies. Not only they demonstrated a true professionalism and talent throughout the process, they anticipated future roadblocks and made sure to build something we can grow with. They made long distance collaboration felt like a non issue. Last but not least, the team is composed of wonderful people to work with : bright, committed, hard workers and great personalities!"
